

Ensuring Your Technology Stays In The Field

Trimble building construction layout solutions are widely regarded as the most rugged and reliable positioning systems available in the industry today. These world-class tools provide consistent and exacting results day-in and day-out in even the most challenging job site environments. This reliability and field-readiness creates a simple reality... Trimble solutions become a technology that you rely on. With BuildingPoint Essential Care, you can rest assured that can continue on-schedule with your layout activities, even when unforeseen circumstances arise.

Essential Care ensures that you always have access to your Trimble workflow even when unscheduled maintenance or service is required. With this exciting coverage, BuildingPoint will provide a no-charge service rental while your Trimble equipment is being repaired and returned to service.

Free Clean & Cal Included!

In addition to keeping your equipment out in the field, Essential Care also includes an annual clean and calibration of your layout solutions, which ensures your layout solutions continue the unparalleled accuracy and repeatability you expect from Trimble solutions.

BuildingPoint Essential Care keeps your technology out in the field, where it belongs. To learn more, contact your BuildingPoint representative, or simply head over to WWW.BUILDINGPOINTOHIOVALLEY.COM

Part #: PS-EC-TS

BPOV Price: \$995.00

Program Conditions

BuildingPoint Essential Care is available exclusively for contractors. Essential Care no-charge service rentals are provided for unscheduled service and repairs lasting longer than 72 hours. Eligible products include Trimble RTS units, Trimble Kenai Tablets, and Trimble GNSS units. Essential Care does not cover parts, labor, or other items covered by Trimble Manufacturer warranty or Trimble Protected protection plans.
