

Protection Plans

Trimble Protected Premium*

You buy Trimble® Building Construction hardware, because you know you can count on Trimble equipment to get the job done. Your Trimble equipment comes with a factory warranty that is our promise to you that we stand behind our Trimble products. Because we understand that you may want to continue to use your Trimble equipment beyond the factory warranty period, Trimble offers additional coverage with Trimble Protected Premium* protection plans. These plans include Accidental Damage* on select hardware, and FIVE YEARS of firmware coverage for eligible receivers!

No-Worry Protection For Product Failures

Our Trimble Protected Premium protection plan is a multiyear plan that supplements the factory warranty to provide you with **FIVE YEARS of coverage for drops, falls, liquid spills, broken screens, and similar types of damage resulting from an accident.** This Accidental Damage coverage is in addition to instrument failures. No matter whether you need a warranty-type repair, your instrument broke as the result of an accident or you just want to buy coverage once and then be worry-free for five years, Trimble has you covered!

Has This Happened to You?

- You are walking through a jobsite and you trip over some debris and drop your Trimble T100 tablet and the screen cracks. If you had Trimble Protected Premium with your Accidental Damage you would know that Trimble Protected is there for you.
- You leave the tailgate of your pickup down and drive away and your Trimble R780 receiver comes rolling out and crashes on the road. You're in luck, Trimble Protected Premium covers that too!
- You back up your truck and forget that you placed your Trimble RTS573 Robotic total station right behind it! Trimble Protected Premium will be there to help!

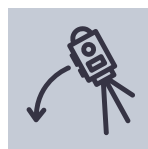

Trimble Protected plans protect you from the hazards of everyday work

Dropped Device Damage

Cracked Screen Damage

Fall Damage

Spill Damage

Benefits

- Trimble Protected Premium is the only plan designed specifically for buyers of new Trimble Building Construction hardware; it enhances and sustains your entire ownership experience with worry-free coverage
- This five year protection plan costs less than buying a new instrument if it needs to be replaced; locks in tomorrow's repair and replacement costs at today's prices
- Our Trimble Protected Premium coverage entitles you to a new or like-new piece of equipment with comparable features if yours can't be fixed, or if it simply makes more sense to replace it
- Backed by Trimble Inc. which has earned the reputation of taking care of their customers
- Your protection plan ensures that you pay no deductible and no out of pocket fees for parts and labor on covered repairs or replacement. You keep your cash in your business instead of fixing your equipment
- Trimble Protected Premium keeps you running, minimizes unnecessary downtime and improves your overall efficiency

Trimble Protected Premium makes good business sense and is an excellent way to protect your cash flow and minimize the risk of doing business!

Trimble Protected Premium is available for Building Construction robotic total stations and targets, scanners, tablets, and GNSS receivers.

Building Construction - Building Construction Hardware Systems

Trimble Protected Premium*

FIVE FULL Years of Coverage

Available for purchase only at the product point of purchase. Trimble Protected Premium* coverage begins immediately and runs concurrently with the factory warranty and throughout the protection plan period. Trimble will either repair the instrument OR replace the instrument with a new or like new instrument if the unexpected should happen. **Additionally, Trimble Protected Premium provides FIVE YEARS of firmware for eligible GNSS receivers.** Don't forget you also get an annual preventative maintenance (adjustments & calibration) service in years three, four and five on Trimble total stations.

Hardware/Firmware/Software

Trimble Protected Premium is available on all the following Building Construction Hardware Systems. Trimble Protected Premium also includes firmware for GNSS receivers.

Category	Product Name
Tablets	Trimble T100, DTR301
GNSS Receivers and Firmware	Trimble R780, SPS986
Robotic Total Stations	Trimble RT573, RTS773, RTS873
Total Station Targets	Trimble MT1000
Scanners	Trimble X7

Important Information

- Repairs and replacements are unlimited for the MT1000 and the protection plan will carry on to its expiration date. Total stations, scanners, GNSS receivers and tablets have unlimited repairs and can be replaced one time. After one replacement of one of these components of the system the protection plan will end.
- Replaced instruments come with a factory warranty; a Trimble Protected Premium plan can be repurchased on the Hardware System components to continue coverage.
- Abuse is not covered by the plan.
- Instruments with cosmetic damage like dings, dents, scratches, etc. that function normally are not covered.
- Trimble Protected Premium does not cover lost or stolen instruments.

*Not available in all countries or regions. See your Trimble Protected protection plans distributor for availability.
