Benefits

- Trimble Protected Premium is the only plan designed specifically for buyers of new Trimble Building Construction Hardware Systems; it enhances and sustains your entire ownership experience with worry-free coverage.
- Our Trimble Protected Premium coverage entitles you to a new or like-new piece of equipment with comparable features if yours can't be fixed, or if it simply makes more sense to replace it.
- Trimble Protected Premium covers firmware on GNSS receivers. That means you always get the most recent updates.
- Backed by Trimble Inc. which has earned the reputation of taking care of their customers.
- Your protection plan ensures that you pay no deductible and no out of pocket fees for parts and labor on covered repairs or replacement. You keep your cash in your business instead of fixing your equipment.

Trimble Protected Premium makes good business sense and is an excellent way to protect your cash flow and minimize the risk of doing business!

Trimble Protected Premium is available for Building Construction robotic total stations and targets, scanners, tablets, and GNSS receivers.

SEE THE REVERSE FOR DETAILS.

[^]Trimble Protected Premium protection plan provides Accidental Damage coverage during the entire product Factory Warranty period and continues through the life of the plan. Premium protection plan available at the original point of purchase only.

^{^^}Preventive maintenance includes annual adjustments and calibration for eligible total stations and scanners.

*Not available in all countries or regions. See your Trimble Protected protection plans distributor for availability.

Plan includes System Hardware	Yes
Plan includes Cables / Connectors	N/A
Repairs	Unlimited
Replacement	One replacement within the System plan (excluding the Trimble MT1000 Total Station Target), at which time the plan is fulfilled and terminates

Contact your Trimble Authorized Distributor for a full list of eligible instruments.

Cost Comparison

Premium vs. Plus

- The Premium protection plan has all of the benefits of a Plus plan, including the added value of accidental damage coverage, starting on the date of purchase and covering your equipment for five years.
- This five-year protection plan costs less than buying new equipment if it needs to be replaced; locking in tomorrow's repair and replacement costs at today's prices.
- Replaced hardware come with a Factory Warranty; a Trimble Protected Premium plan can be repurchased on replacement hardware to continue coverage.
- Abuse is not covered by the plan.
- Instruments with cosmetic damage like dings, dents, scratches, etc. that function normally are not covered.
- Trimble Protected Premium does not cover lost or stolen instruments.

Important Information

For more details on Trimble Protected Premium plans for BuildingPoint distributors, see the plan datasheet.

- Robotic total stations, scanners, GNSS receivers and tablets have unlimited repairs and can be replaced one time. MT1000 have unlimited repair and replacement throughout the life of the Premium plan.

Trimble Protected Premium keeps you running, minimizes unnecessary downtime and improves your overall efficiency.
