

Protection Plans

Trimble Protected Plus

You buy Building Construction hardware because you know you can count on our equipment to get the job done. Your Trimble equipment comes with a factory warranty that is our promise to you that we stand behind our Trimble products. Because we understand that you may want to continue to use your Building Construction equipment beyond the factory warranty period, Trimble offers additional coverage with Trimble Protected Plus protection plans. Trimble Protected Plus protection plans make good business sense and are an excellent way to protect your cash flow and minimize the risk of doing business.

No-worry Coverage

A Trimble Protected Plus protection plan covers everything that is included in your original Trimble hardware factory warranty. If the unexpected happens and your equipment has to be repaired, that's no problem! Your protection plan ensures that you pay nothing out of pocket for parts and labor on covered repairs. There's also no deductible or fee associated with covered repairs. Repairs are typically completed faster because there's no need for your distributor to generate an estimate and get your approval before starting work. Protection plans are money and time savers.

Value Add Features

Our protection plans' value comes in the additional features and benefits available to you as long as you own the coverage. Our protection plans' value add features include:

- preventive maintenance (with select plans – see your distributor for details)
- protection against surges when using Trimble power supplies
- protection against wear and tear from repetitive use that causes your equipment to not function to specification. For example:
 - If the part can no longer perform the function to which it was designed solely because of its condition (due to usage), it's covered by wear and tear.
 - Cosmetic damage that does not affect the functioning of the unit is excluded from wear and tear coverage.
- protection from environmental damage from dust, heat, humidity and salt air when used in accordance with intended equipment specifications

Benefits

- Trimble Protected Plus protection plans are the only plans designed specifically for buyers of Building Construction hardware; they enhance and sustain your entire ownership experience with worry-free coverage
- An annual protection plan costs less than the average repair cost
- Our Trimble Protected coverage entitles you to a new piece of equipment with comparable features if yours can't be fixed, or if it simply makes more sense to replace it
- It's backed by Trimble Inc.
- You can prorate your plans to update all your equipment on an annual expiration date—no need to remember multiple payment dates to ensure your coverage does not lapse
- Locks in tomorrow's repair costs at today's prices
- A protection plan keeps you running, minimizing unnecessary downtime and improving your overall efficiency

A Trimble Protected protection plan is also available for your equipment firmware.

Trimble Protected Plus Protection plans cover specific models of antennas, tablets, radios, targets, robotic/layout total stations, GNSS receivers, and 3D imaging scanners.

Building Construction

Hardware – Protection Plans

If you decide to upgrade to newer Trimble equipment, a Trimble Protected Plus protection plan will add valuable dollars to the final sale of your current equipment—plans come with transferable ownership (plan follows serial number). This gives you worry-free use of your equipment after your purchase.

Eligibility to Renew Your Trimble Coverage

If you sign up today for a Trimble Protected Plus protection plan, you can look forward to lapse-free coverage after your factory warranty has expired. If your equipment is not covered by a protection plan or factory warranty now, we also offer a great reinstatement option to bring your equipment back under coverage with a protection plan.

The Trimble Protected Promise

Our plans are backed by Trimble's quality parts and quality repair service; a value you can trust. Trimble wants to keep you a satisfied protection plan customer for life so we guarantee to stand behind you and your product for as long as you own your coverage. Our plans pay for all covered repairs needed to keep your product in peak operating condition. If your equipment can't be fixed, or it simply makes more sense to replace it, we will swap out your old equipment for a comparably equipped new device.

Hardware

Category	Product Name
Tablets	Kenai Tablet, FZ-M1 Panasonic, Trimble T100, Trimble T10
GNSS Receivers	Trimble R8s, SPS986
Radios	TDL2.4
Targets	AT360, MT1000
3D Imaging Scanners	TX6, TX8, X7
Robotic Total Stations	RTS573, RTS655, RTS673, RTS771, RTS773, RTS873
Layout Total Stations	RPT600
